

For a People and a Future

1-Filter is Fragile

- Handle with care.

- Do not clean the filter with soap water.

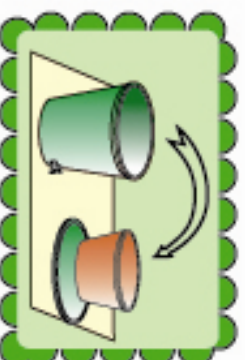

- Do not touch interior and exterior surface of the filter.
- Only handle the filter from the rim.
- Do not poke your finger in the faucet hole.

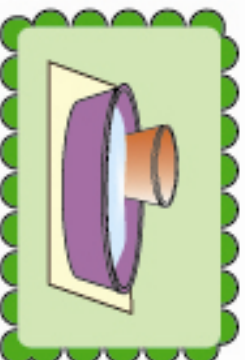

2-Cleaning

- Take the filter out it and place in a clean area.

- Clean the filter with water that has been filtered or boiled.

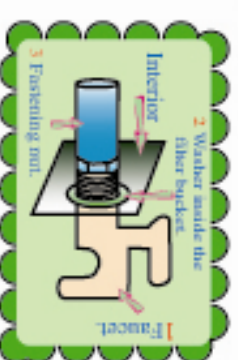

- Clean the water bucket (not the filter itself) with soap and water then allow the bucket to air dry.

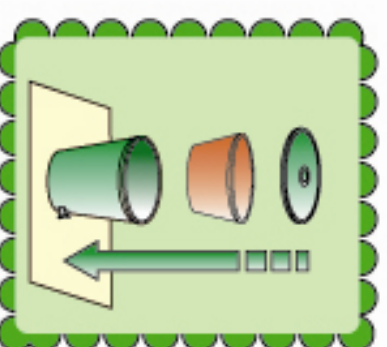

4-How to assemble Faucet

- 1 Faucet.
- 2 Washer inside the filter bucket.
- 3 Fastening nut.

4-Daily Usage

- Assemble the filter as shown.

- Cover with lid to prevent dust and insects.

- Place it in a clean and safe area.

Note:

- The filter lasts for 2 years. After 2 years replace it with a new.
- The filter can be used to filter any kind of water, such as pond, river, stream, water fall, etc.
